Description	<p>BSN is a world-leading provider of branded digital packaging solutions, specializing in high-performance RFID and smart packaging technologies. With a strong commitment to innovation, sustainability, and excellence, we serve over 150 global brands and 5000+ customer factories across 16+ countries and regions. Our esteemed clientele includes industry giants such as Adidas, Columbia, Vans, Timberland, UGG, ZARA, Crocs, PVH, Tommy Hilfiger, Calvin Klein, and Tory Burch, among others. Global Presence & Operational Excellence To ensure seamless service, BSN operates six production facilities strategically located in China, Vietnam, and Indonesia, enabling fast door-to-door delivery. Additionally, our sales offices in the United States, Spain, Hong Kong, the Netherlands, and Germany provide localized support to global brand headquarters. With plans for further expansion into Spain, Bangladesh, and India, we continue to strengthen our international footprint to better serve our clients worldwide.</p> <p>Technological Leadership in RFID & Smart Packaging BSN is at the forefront of brand protection and RFID innovation, offering end-to-end solutions—from chip and antenna design to software and hardware integration. Our expertise spans the entire supply chain, delivering intelligent packaging that enhances efficiency, security, and traceability from factories to retail stores.</p> <p>We leverage cutting-edge technologies such as QR/QT anti-counterfeiting, smart visual IoT applications, and anti-mold solutions to help brands combat fraud, optimize inventory management, and improve consumer engagement.</p>

G7 Master Facility Qualification Directory

Sustainability at the Core Sustainability is a fundamental pillar of BSN’s operations. Certified by GRS (Global Recycled Standard) and FSC (Forest Stewardship Council), we meet the rigorous environmental standards required by top global brands. As the demand for eco-friendly packaging grows, we collaborate closely with our partners to integrate sustainable materials and best practices into their products, reducing environmental impact without compromising quality or performance.

Description

Our Vision: The Future of Smart Packaging Driven by continuous innovation, BSN is dedicated to becoming the leading omni-solution packaging partner in the new retail era. We combine advanced technology, sustainable practices, and global service excellence to help brands enhance supply chain efficiency, security, and consumer trust. Discover how BSN can transform your packaging strategy—visit us at www.gzbsn.com](<http://www.gzbsn.com>)

Description

For more than 22 years, intBOX has remained steadfast in one mission: delivering paper products with uncompromising quality and consistency. We believe that packaging, greeting cards, and every paper product we produce are not merely functional tools, but must also embody precision, aesthetics, and brand credibility. At intBOX, quality is not an added value—it is the very foundation of our operations. Quality Management as a Standard Our success is built upon a strict quality management system, with clear processes and multi-layered inspections from raw materials to printing, finishing, and final packaging. This approach eliminates deviations and ensures that every product—whether packaging, greeting cards, or other paper-based solutions—achieves uniformity, reliability, and premium finish.

We see quality as a promise to our customers: every shipment, every product line, and every single item must fully meet expectations. This consistency has allowed intBOX to confidently serve the most demanding international markets. Commitment to G7 Standards One of intBOX’s strongest commitments is the application of the G7 international printing methodology, the global benchmark for color management and visual consistency.

G7 Master Facility Qualification Directory

Description

For us, printing is not just image reproduction—it is the art of protecting brand identity. By calibrating our processes to G7 standards, we ensure:

- Accurate color matching: Brand colors remain consistent across all orders, large or small.
- Harmonious visuals: Neutral tones, balanced grays, and refined details that enhance aesthetics.
- Efficiency and reliability: Faster approvals, reduced waste, and cost savings for customers. This means that from shopping bags and gift boxes to greeting cards and other paper products, everything maintains a consistent and trustworthy visual identity.

Product Portfolio intBOX specializes in a wide range of premium paper products, including:

- Paper packaging: shopping bags, gift bags, gift boxes.
- Greeting cards: from classic folded cards to intricate 3D pop-up cards.
- Creative paper products: craft, decorative, and other artistic paper solutions.

Markets & Capabilities intBOX currently serves customers in the United States, Europe, Japan, and many other international markets where quality standards are rigorous. Our factory is equipped with:

- 03 modern offset printing machines
- 03 high-speed automatic lamination machines
- 03 high-speed automatic die-cutting and foil-stamping machines
- 08 production lines for bags and paper boxes
- A fully integrated finishing system

This ensures both large capacity and stable quality.

Culture & People
The secret of intBOX's success lies not only in technology but also in people. We foster a culture built on discipline, creativity, and continuous improvement. Our team is constantly upgrading skills to meet global standards while maintaining a spirit of partnership and responsibility. Our Promise With intBOX, customers receive more than just products—they gain a partnership built on trust, precision, and consistency. From packaging and boxes to greeting cards and beyond, we are committed to delivering paper solutions that embody excellence in both quality and aesthetics. intBOX - Where Quality and G7 Printing Standards Redefine Paper Products.

Description	<p>Starprint was founded 55 years ago after a lucky encounter between a local Thai printer and Colgate, as they were expanding their horizons into Asia. Since that day, the relationship with Colgate has gone from strength to strength and Starprint has built a reputation as a reliable source of quality printing and packaging in South-East Asia. In the year 2001, Starprint expanded into Vietnam upon the request of our customers in order to bring our advanced capabilities and enhance the capabilities of the local market. With the advantage of the competitive cost base, Starprint Vietnam has rapidly grown into one of the leading printers in Vietnam, with a community of over 1000 employees, 8 offset lithographic printing machines and an extensive array of finishing and assembly equipment over 26,000 m2 of operations.</p>
